Career Objective

- Fresh CS graduate offering a strong foundation in web development and programming principles across multiple platforms and languages.
- Experienced in object-oriented programming; developing, testing and debugging code.
- Quickly learn and master new technologies; successful working in both team and self-directed settings.

Education

University of California, Santa Cruz

Bachelor of Science in Computer Science GPA: 3.00

Santa Cruz, CA

Sep 2022 - Current

Skills

Programming Languages: C, C++, Java, Python, Javascript

Frameworks: React, ExpressJS

Databases: Firebase, MySQL

Other: Agile, Github, Photoshop

Projects

Total Fitness *React, Firebase, Javascript*

Coordinated with a team of fellow students to create the useful combination of fitness and calories application, taking all the calories intake, scheduling fitness exercise, and storing the data in the firebase.

AniChara *React, Machine Learning, Javascript, AI*

Swipe Versus *React, Javascript*

Personally developed a mini-card game that you are able to play single player as well as an option to invite a friend of yours to the table to play alongside you through HTTP GET requests utilizing a database.

Personal Website *React, Javascript*

I created a website to give more of an introduction to myself and outline my entire journey as a programmer. I plan to occasionally update it with more features as my portfolio grows as well as when I gain more skills as a coder.

Relevant Coursework

Full-Stack Web Development
